

TESTIMONIAL

"Since the last course, I began to change my approach and the success I have had with those difficult cases came down to my learning at TTI. This has taught me more than a technique but a whole approach toward patient care..."

TONGUE TIE INSTITUTE

TONGUE TIE INSTITUTE COURSES

THE FOUNDATION COURSE

Available for access *any time and any hour* till 1st March 2020

This course will provide an in-depth foundation on the identification, diagnosis, treatment, aftercare and life-long effects of lip and tongue ties. *See page 2 for more information.*

The Foundation Course is a prerequisite for our other courses which will be shared in future:

- » Advanced Course - Infants & Toddlers
- » Advanced Course - Children & Adults
- » Extension Course - Understanding Lactation Consultancy & Oral Restrictions
- » Extension Course - Understanding Bodywork & Oral Restrictions

ADVANCED COURSE (Infants and Toddlers)

Available for access *any time and any hour* till 1st March 2020

This course explores the intricacies of working with patients younger than 4 years with a particular focus on infancy. The symptoms, signs of issues and the approach to treatment are outlined in detail.

See page 3 for more information.

FOUNDATION COURSE

Our Foundation Course examines the research, current approaches, paradigms and results of comprehensive treatment or tethered oral tissue.

This course will provide an in-depth foundation on the identification, diagnosis, treatment, aftercare and life-long effects of lip and tongue ties.

Following the Foundation Course, practitioners will be able to confidently determine whether an oral restriction is impacting breastfeeding, eating, speech, breathing and posture. They will be able to professionally advise patients and parents on an appropriate course of action at various life stages.

The role of each member of a multi-disciplinary team will be covered and how overall function can be restored and enhanced through effective treatment and aftercare.

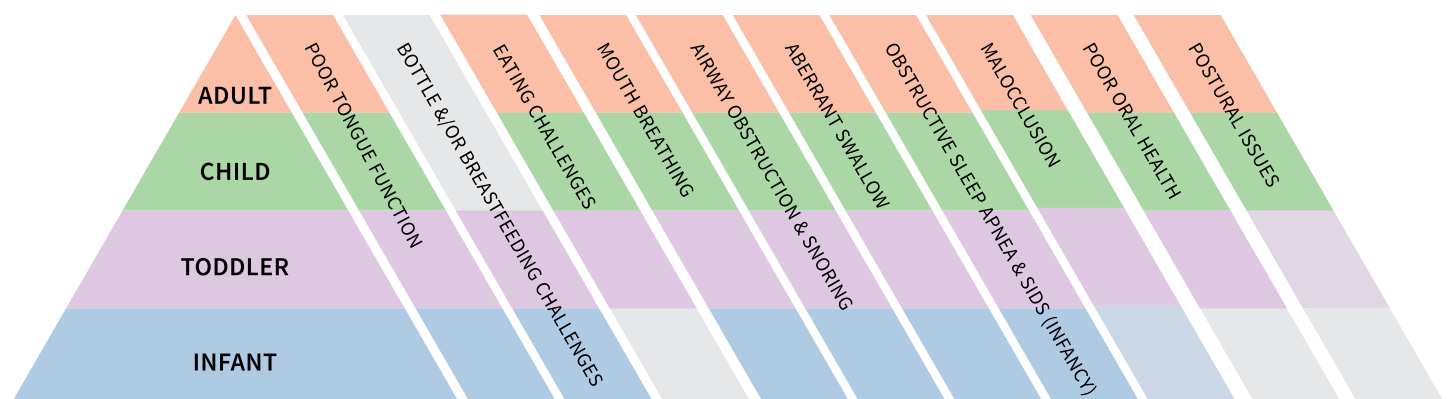

The Foundation Course includes a comprehensive 120-page workbook produced by the Tongue Tie Institute which provides extensive foundation information and scholarly references. This book is an essential companion for any health practitioner working to address oral restrictions and is only available to participants of the Foundation Course.

The Foundation Course is a prerequisite for and will be followed by our Advanced Course - Infants & Toddlers, Advanced Course - Children & Adults, as well as our extension courses - Understanding Lactation Consultancy & Oral Restrictions and Understanding Bodywork & Oral Restrictions.

TESTIMONIAL

This was not the beginning of my tongue tie journey but has been one of the most pivotal courses I've done. My eyes are opened, my career is broadened and my heart is most certainly enriched... three words of advice.... JUST DO IT!!

General Dentist

ADVANCED COURSE - INFANTS & TODDLERS

Our Advanced Course – Infants & Toddlers covers all elements of running a tongue tie clinic and includes an additional observation day at Enhance Tongue Tie Clinic.

Following the advanced course, dental teams will be equipped with ample knowledge of the protocols, procedures and equipment to perform tongue tie surgery and to ensure high quality treatment and patient care.

Participants will learn:

- Management of tongue and lip ties in infants & toddlers
- Advanced diagnosis related to infant tongue and lip ties
- How to perform a thorough oral restriction consultation
- The importance of an interdisciplinary approach
- How to work with a lactation consultant
- How to work with body workers (eg chiropractors/osteopaths)
- Record taking, questionnaires and consent forms
- In-depth, tried and tested protocols to use in your practice
- Practice management considerations
- Scope of practice, compliance with regulations
- Practice integration and patient care

TESTIMONIAL

"I just don't know what the heck I have been doing all my career!!! Finally this has made sense of what has been missing in my care for my patients. I can't wait for Tuesday to do my work with this additional vision."

Paediatric dentist

The Advanced Course includes a complimentary observation day at one of these 3 Tongue Tie Clinics in Australia: Enhance Dentistry in Brisbane, Gold Coast Holistic Care at the Gold Coast or Myofocus in Melbourne.

Previous participants describe this observation day as worth the price of admission alone as it provides a very practical demonstration of how to treat oral restrictions in your practice.

The Advanced Course includes the provision of comprehensive resources, including an extensive workbook containing the compiled insights of decades of clinical experience and the treatment of over 10,000 patients with oral restrictions. This course book and associated patient forms provide all necessary information for the comprehensive management of infants and toddlers with oral restrictions.

Completion of the Foundation Course is an essential prerequisite for participation in the Advanced Course.
