

INTERMEDIATE TRAINING COURSE

6

CE CREDITS

WHO SHOULD ATTEND

Waterlase dentists & specialists (who have completed the certified training course at least 6 months before the course date), who are looking to train in laser surgery for hard and soft tissue grafting, periodontal disease, extractions and peri-implantitis treatments.

COURSE OBJECTIVES

This intense one day didactic and hands on course is structured to provide advanced knowledge in the surgical application of lasers by hacking laser physics' parameters to various hard and soft tissues phenotypes. Increase the number and breadth of procedures delivered to your patients and attract new patients by offering the most "minimally invasive approach" to dentistry. You will take away an understanding of:

- ✦ Physics of laser energy penetration to control bleeding and create a stable blood clot
- ✦ Remove the fear of raising flaps in the esthetic zone and not lose the papillae
- ✦ Learn the techniques of the **MINIE flap** and **MINIE osseous crown lengthening**
- ✦ Embrace MINIE free gingival grafting, MINIE connective tissue grafts and MINIE tunnelling with a unique MINIE methodology of palatal donor tissue harvest and acellular dermal matrix, as well with appropriate laser tips
- ✦ Predictable extraction techniques without touching the precious buccal plate
- ✦ Treatment of the ailing, contaminated implant surface to prepare for successful grafting
- ✦ Adapt laser technology to block grafts, internal and external sinus lifts, ridge splits and tenting for a minimally invasive approach to advanced bone grafting

INSTRUCTOR:

Preety Desai, BSc, DDS, Dip Perio, MSc Laser Dentistry

Dr. Preety Desai has trained in dentistry at McGill University, specialized in periodontics at the University of British Columbia and further went on to receive an MSc in laser dentistry from Aachen University and a Mastership from WCLI. She maintains a full time practice and is clinical associate professor at UBC in undergraduate and graduate periodontics. She has lectured internationally at the AAP, Academy of Osseointegration, ICOI, WCLI and various study clubs and dental societies. She is passionate in sharing her experience and knowledge in merging laser technology and its benefits in her specialty periodontal and implant fields.

COURSE DETAILS

Sunday, April 26, 2020, 8:30AM to 5PM
(Lunch Provided)

Steigenberger Hotel München

Berliner Straße 85
Munich, 80805 Germany
+49 (0)89 159061-0

Group rate at: wcli.org/munichhotel

TUITION COST

\$2,000.00 USD

The World Clinical Laser Institute is the world's largest dental laser organization with over 19,000 members. For more information, visit wcli.org

Cancellation Policy

All cancellations must be made in writing 14 calendar days prior to the course. WCLI reserves the right to withhold \$150 administrative fee for cancellation refunds. No cancellations or refunds will be accepted after this deadline. WCLI reserves the right to cancel or reschedule any program, and to change faculty assignments if necessary.
